For Sheriff, PREDERICK L. VULTE.

FINANCIAL AND COMMERCIAL.

The following is a comparative statement of the xports (exclusive of specie) from New York to ince January 1:-

1859. 1860. 1861. the week. \$1,207,574 2,072,047 3,815,470 viously reported. 52,544,522 75,434,294 101,336,116 Since January 1...\$53,752,096 77,506,341 105,151,586 This is an extremely satisfactory statement; inleed, considering that we are exporting no cotton, t is unprecedented. Included in the aggregate or last week are about \$850,000 of food shipped to Breat Britain and Ireland, and about \$1,200,000 orth of wheat and flour shipped to France. These are tolerably substantial guarantees for the reservation of the peace between this country nd Europe. In a short while the close of navigaion will put a stop to these heavy exports, as all he railways in the country cannot do much more han supply food enough for our own consumption. foney continues moderately active, the current rate or call loans being six per cent, with exceptions or call loans being six per cent, with exceptions t5 and 7. First class short paper passes readily mough at 6 a 7, though the 7.30 notes constitute a powerful competitor for mercantile paper. The Sub-Treasury did a fair business to-day in those potes—the receipts being in excess of half a military at the agencies little was done. Purpor states ion; at the agencies little was done. Rumor states hat Commodore Vanderbilt's interest in these '.30 notes falls but little short of half a million of lallars. Another private citizen of New York idds \$300,000, and several individuals \$100,000

The foreign exchange market was firm to-day at esterday's rates. Some bankers' bills could be gught at 107% for sterling and 5.35 for francs, but he general rates at the leading drawers' were 0734 and 5.33%. Mercantile bills seem scarce. hey sell at 106% a 107 for sterling and 5.36% is for france. The mail to-morow will not be Leavy one.
The impression prevailed on the Stock Exchange

6-lay that a battle was effect being ought or about to be fought near cesburg, and the dealings were affected a consequence. At the morning board the bears howed courage, and sold stocks down with freeom. Between the boards the impossibility of btaining stocks for delivery caused the market to scome steadier, and at the second board everyhing advanced and closed with some strength. he features of the market are the scarcity of tocks, and the readiness of the bear operators to ttempt to get up a panie on the occasion of each ifling reverse sustained by the Union armies. It eed hardly be observed that with the lines of our rmy stretching from Fortress Monroe in Virginia, b Warsaw in Missouri, occasional reverses must be spected, and we cannot reasonably anticipate ccess in every little skirmish. But it is ridion us to act as though each twopenny check imaired the value of the great enterprises of the untry, or of the credit and resources of the feded government. The decline at the morning board as equal, on government sixes, to 1/2 per cent, on irginias, Missouris and Tennessees to 1/2 each, New York Central to 1/8, on Erie to 1/9, on Michiin Central to %, on guaranteed to %, on Michiin Southern, old, to 14, on Galena to 1, on Teledo to , on Block Island to 34, on Quincy to 34. The only cception to the market was Pacific Mail, which lyanced 1/2 per cent from the lowest price of yes rday afternoon. At the second board nearly ery kind of security was higher, and the merke ged from at the following quotations: This

pon, 1881, 94½; do. 5's, do., 1874, 83½ a 84; Indiana 5's, 79 a 81; Virginia 6's, 45½ a 45½; Tennessee 6's, 42 a 42½; North Carolina 6's, 59 a 60; Missouri 6's, 43½ a 43½; Pacific Mail, 92 a 921/4; New York Central, 77 a 771/4; Erie, 313/6 a 311/4; do. preferred, 51 a 52; Hudson River, 355/6 a 36; Harlem, 1234 a 13; do. preferred, 311/4 a 32; Reading, 35 a 36; Michigan Central, 49 a 493/4; Michigan Southern and Northern Indiana, 18 a 1814; do. guaranteed, 371/4 a 373/4; Panama, 115 a 117; Illinois Central, 651/ 653/4; Galena and Chicago, 701/4 a 701/4; Cleveland and Toledo, 351/4 a 353/4; Chicago and Rock Island, 505/4 a 503/4; Chicago, Burlington and Quincy, 621/4 a 623/4; Milwaukee and Prairie du Chien, 16½ a 17½; Illinois Central bonds, 7's, 88½ a 89; Delaware and Hudson Canal, 85 a 86; Pennsylvania Coal, 76 a 78. In the street afterwards business was done at the highest figures in the above list—Central at 71½, Erie at 31½, Toledo at 35½, Galena at 70½, Pacific Mail 93,&c. Bank stocks have fallen lately some ten to twen-

ty per cent. This decline was predicated upon the losses which the banks were expected to make through the Southern repudiation of debts, and through their negotiations with the general government. Several leading institutions have taken some pains of late to form an estimate of the actual amount of loss sustained by the banks of New York through Southern repudiation. They arrive at the conclusion that five per cent—say the profits of eight months' business-on the gross capital of the banks will cover the entire loss from this source. With regard to their negotiations with government, it must be borne in mind that on the 19th of August the New York city banks placed to the credit of the United States government a sum of \$35,000,000, which has ever since drawn interest at the rate of 7.30. Of this loan, the banks have sold to the public about one half, and ten per cent of the whole, or \$3,500,000, still remains undrawn by government. On 1st October a second sum of \$35,000,000 was passed to the credit of the govern ment, the whole of which remains undrawn, though the banks receive interest thereon at the rate of 7.30 per annum. On the 1st November, or thereabouts, a third sum of \$35,000,000 will be placed to the credit of the government, and will commence to draw interest at the rate of 7.30. Experience has proved that the public will in course of time relieve the banks of the whole of the 7.30 notes, or of so much of them as they wish to part with. Their specie strength has continued to increase steadily for the past year. They hold now fully twice as much gold as they held a year ago, when they were considered unusually strong. We submit that the above facts do not look like evidences of bad banking. Under the circumstances, the following table will probably be found of

....... 93 95 113 113 105 106 The Board of Brokers to-day passed the resolutions published in this morning's Herald, appoint-ing a committee to detect persons guilty of doing business cheap. This committee is likely to win extensive popularity, both with the brokers and the public. If it is efficient, it will probably have the effect of reducing the business of the Board at a pretty rapid rate. It is not stated whether the committee is to have access to the books of memare in order to ascertain what they get from their customers; they will probably at least attempt to do so. The results in this case may prove entertaining as well as instructive.

The business of the Sub-Treasury was as follows

Dean Doctor—I have been afflicted with total deafness, and this morthing I was induced to pay you a visit. No one can imagine my delight when, after one operation at your hands, my hearing was enddenly, and without pain, restored deaf, almost shut out from the pleasure of using so necessary a sense, to have it returned, and to hear so distinctly, reflects great credit on you for the immense amount of sailly you possess. I beg to thank you for what I can so truly appreciate. I am, sir, your obedient servant, EDWARD TEMPLE HARRISON.
